

School Of International Business

“We are creating the business leaders of tomorrow.”

The business leaders of tomorrow need a quality education today. They need rigorous academic preparation, solid real world skills and an enhanced cultural awareness. They need us...the School of International Business at the Kearny High Educational Complex.

Our school is designed to produce innovative, principled, culturally aware and insightful leaders of business, government and non-profit organizations. Students will be able to take advantage of a personalized educational environment while learning how our increasingly interconnected business world is affected by local and international influences, and national and world growth.

Students will be connected with an adult staff member during Advocacy Periods, which will enable them to receive extra support throughout the school year. They will also be able to take advantage of multiple opportunities for job shadows, tours and internships throughout the community.

Along with opportunities to participate in activities unique to the school, students will also be able to take part in sports, extracurricular clubs and ASB programs at Kearny High Educational Complex. Upperclassmen will also have access to courses at Mesa College in our Fast Track Program and can simultaneously earn high school and college credits.

An array of theme-related courses and electives will be available, such as:

- **Business Environments**
- **Computer Applications**
- **Computerized Accounting**
- **Summer Study Abroad (Mesa College)**
- **Marketing, Meeting and Special Event Planning**

If you're interested in gaining the knowledge and skills that will help you on the road to further education and a career in business, look no further than the School of International Business. From personalized instruction to practical training, we have everything you'll need to achieve academic and personal success.
