

KEARNY HIGH EDUCATIONAL COMPLEX

Welcome to the Kearny High Educational Complex, which offers all students a rigorous college preparatory curriculum in a personalized learning environment. Each of the four Kearny schools is an independent community that offers students the opportunity to select a theme that matches their interests and allows them to make real world connections.

School of Science, Connections and Technology

If you're fascinated by science and technology then check out the School of Science, Connections, and Technology where students will be provided with real world scientific learning experiences to prepare them for success in post-secondary education and/or skilled employment in a science-based economy. Electives may include: Forensics, Sports Physiology, Psychology, Science Fiction Literature, Nursing and Biotechnology.

The Stanley E. Foster Construction Tech Academy

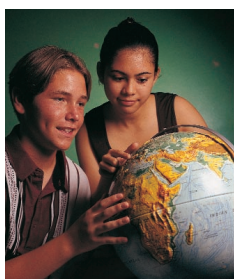

Students interested in building and designing can explore careers in construction, architecture and engineering at the Stanley E. Foster Construction Technology Academy. The academy will provide students with an opportunity to explore these fields through a hands-on, rigorous curriculum that prepares students for direct entry into colleges, apprenticeships, or careers.

Electives may include: General Construction, Architecture and Design, Engineering, Computer Integrated Manufacturing and Computer Aided Drafting.

School of International Business

The School of International Business is designed to produce innovative, principled, culturally aware and insightful leaders in business, government, and non-profit organizations. Students will have opportunities to develop fluency in world

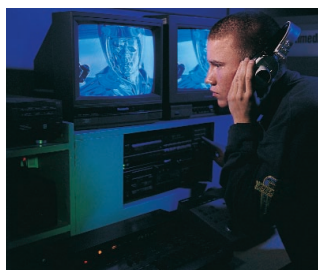

languages while studying finance, marketing, management, and international diplomacy. Electives may include: Business Management and Ownership; Hospitality/Tourism; Summer Study Abroad (Mesa College); and Marketing, Meeting and Special Event Planning

School of Digital Media and Design

Offering everything from fashion to animation, the School of Digital Media and Design focuses on creating an environment where students master high-level communication, technological, and critical thinking skills. Classes will emphasize multimedia

projects such as advertising, web design, and video production.

Electives may include: Set Design, Fashion and Costume Design, Advertising and Product Design, Film Production and Editing, and Radio and TV Production and Editing.

The Kearny High Educational Complex offers students the opportunity to participate in Komet sports and school clubs as well as access all common facilities such as the newly renovated library. Each school offers a personalized environment and promotes rigorous academic standards as well as real world connections through internships and job shadows.
