

21st Century Collaborative Network

The mission of Community as Leaders and Learners is to create a 21st century community of learners and a sustainable model for developing leaders throughout the Dysart Unified School District.

Staff members who meet eligibility requirements can apply to become CaLL Candidates. Once approved, they can design and propose projects that support their individual professional growth goals in alignment with the district strategic plan.

Submit your application today at www.dysart.org/yourcall

Project Qualifications

- Direct alignment to the strategic plan
- Tool, strategy, program model, concept, or construct that supports engineering 21st century graduates
- Can be replicated and is sustainable
- Aligns with school CP plan
- Enhances the expertise of participants within an area of personal interest
- Results in a product that can be used to improve educational practices in the district
- May include collaboration among multiple CaLL candidates (not necessarily from the same site)
- Includes a time commitment that supports the generation of a professional product
- Includes project plan and timeline with milestones to which participants will be held accountable

While completing a project, participants can...

- choose their own activities during school sponsored professional development time
- propose participation in professional development opportunities (conferences, books, webinars)
- access a team advisor who provides project support and guidance
- be accountable to advisor and supervisor for progress on project according to proposed timelines and milestones during professional development time
- be added to the list in the front office that indicates the level and year it was achieved
- use their project participation towards 301 goals
