

# Instructional Practices and Global Competencies: Strategies for Educators

Jackie MacFarlane  
Senior Research Associate

# Study Questions

- What can **system-level leaders** do to promote instruction focused on deeper learning?
- What can **school leaders** do to support instructional practices?
- What can **teachers** do to improve instructional practices?

# Communicating a Vision

- Articulate consistent expectations and practices
- Adopt common frameworks or strategies

# Using Data to Inform Instruction

- Create buy-in for instructional improvement
- Identify trends and needs
- Prioritize group(s) of students

# Supporting Teachers

- Provide common planning time
- Offer opportunities to learn from colleagues
- Place school leaders in instructional leadership roles

# Collaboration Between Educators

- Ensure coherence in policies and practices
- Establish continuity between feeder schools

# Continuous Improvement

- Be willing to improve practice and try new things
- Challenge and engage students through:
  - ◆ Safe learning environments
  - ◆ Multiple points of access
  - ◆ Choices and options
  - ◆ Lessons that are applicable and relatable
