

EMPOWERING LEADERSHIP FOR DISTRICT LEADERS THROUGH INNOVATIVE PROFESSIONAL PRACTICE

Leadership and school culture create the foundation of schools that are future ready. As such, district leadership provides a vital pillar for transformation. Through Future Ready Schools® (FRS), district leaders invest in collaborative leadership instead of autocratic structures; create a dynamic culture of innovation; develop and support a vision for teaching and learning that is personal and authentic; and model desired outcomes by providing opportunities, time, and needed resources for school leaders and educators to grow professionally.

FRS district leaders ensure equitable access to personal and authentic learning experiences for all students while redesigning learning spaces to match the envisioned pedagogy. In addition, these leaders promote the effective and efficient use of data to support student learning while ensuring the highest levels of student privacy. FRS district leaders also collaborate with the community they serve and focus on long-term financial, pedagogical, and political sustainability.

By leveraging actions from the Future Ready District Leaders™ framework, superintendents, curriculum directors, professional learning directors, and other district leaders plan systematically and enact policies that ensure instructional practices maximize student learning outcomes. This framework affirms the belief that all students, regardless of where they live, should have access to opportunities to maximize their gifts and abilities.
